Communicating with your healthcare provider: improving the safety & quality of your care

What does effective communication look like?

Why is it important?

you know your care plan & how to manage your care when you leave a health service

information about your care is **accurate** and **up to date**

your **goals and needs** are discussed with your healthcare provider and included in your care plan

you are **involved** in decisions about your care

you, your family & carer are **given information** about your care & understand your **treatment options**
